Celebrating “The Chosen”

In a heartwarming development, ET-X Projects at Kendal Power Station proudly announces the progress of our dedicated students who are on the verge of completing their trade training. These students, though non employees, have shown remarkable dedication and skill in their respective fields.

The students, have been part of an intensive training programme at Top of the World . The Training program is designed to equip them with the necessary skills and knowledge to excel in their trades. It should be noted that their journey has been one of hard work, perseverance and a commitment to excellence. As the students near completion of their training, our chosen are poised to make significant contributions in their communities and the broader industry. Their success stories serve as an inspiration to others, demonstrating that with the right support and dedication, great things can be achieved.

The Chosen, embody hope and the promise of a brighter future!

Our students come from challenging backgrounds where opportunities have been scarce, yet they embody hope and the promise of a brighter future.

Let’s rally behind them as they work tirelessly to earn their qualifications and trades! At ET-X Projects, we are eagerly awaiting their results and are with them every step of the way.

We are incredibly proud of their dedication and can’t wait to celebrate their well-deserved achievements!
